### ***Give the Gift of a Lifetime!***

This holiday season, give a gift that will last a lifetime. Whether it is traditional fine art, old family photos, or that prized collection, surprise them on Christmas day with something unexpected on the wall instead of under the tree! Framing preserves and protects as well as beautifies...and will last for years to come. So this year, instead of the same old thing, consider giving the gift of custom framing for a truly special and unique gift that will stun and delight long after the decorations are put away.

Wishing you all a very Happy Holiday season and a delightful New Year full of art and color and fun!

**Sincerely,**

Chuck Mitchell
